First log on to Elys PC using Digipass

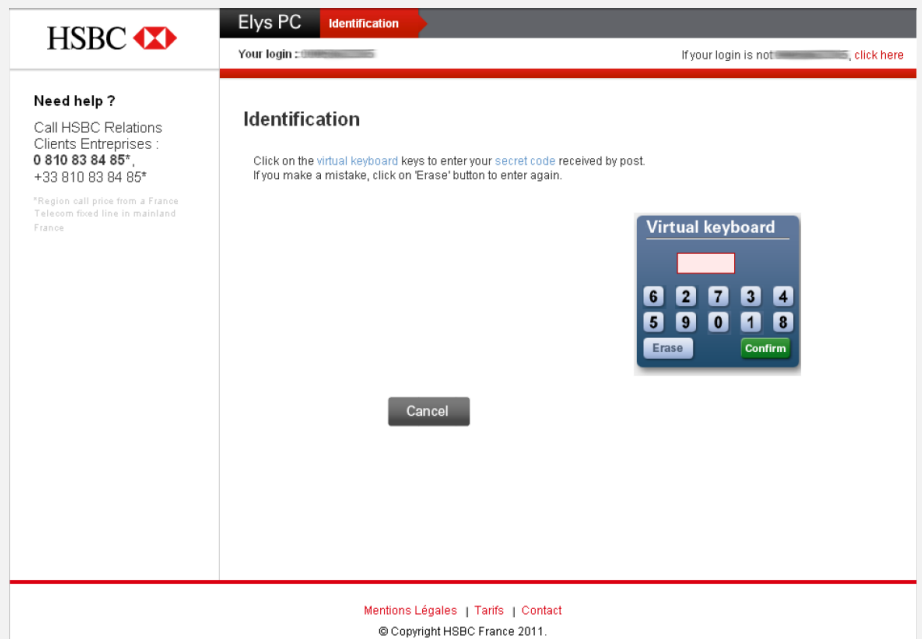

YOUR SERVICES

- **First log on**
- Daily log on

Go to **www.hsbc.fr**, Business heading, « **Log on your accounts** » then enter your ID.

Enter your PIN code received by post using the virtual keyboard.

First log on to Elys PC using Digipass

Now you have to create your memorable question/answer: enter your memorable question and its answer, and then confirm.

The screenshot shows the HSBC Elys PC Identification page. On the left, there is a sidebar with the HSBC logo, a 'Need help?' section with contact information (0 810 83 84 85, +33 810 83 84 85*), and buttons for 'Digipass Demo' and 'Online Help'. The main content area is titled 'Amend your memorable question-answer' and includes a red warning: 'Create your memorable question-answer to ensure the optimal security of your Elys PC access. You will have to enter the answer at each connection.' Below this, there are three sections: 'Memorable question' with a text input field containing 'Name of your mother?', 'Memorable answer' with a masked text input field, and 'Answer confirmation' with another masked text input field. At the bottom right, there are 'Confirm' and 'Cancel' buttons.

You have to define a new Digipass activation PIN code.

The current code is automatically completed, you only have to define the new one and confirm.

The screenshot shows the HSBC Elys PC Identification page for 'Amend your secret code'. The sidebar is identical to the previous screenshot. The main content area is titled 'Amend your secret code' and includes the text 'Customize your access to HSBC Relations Entreprises phone services'. Below this, it says 'Use the virtual keyboard to : - Enter your new 6-digit secret code - Confirm your new secret code'. A 'Virtual keyboard' window is displayed, showing three stages: '1. Current code' (masked), '2. New code' (masked), and '3. Confirm' (masked). The keyboard has numeric buttons (0-9), 'Cancel', 'Erase', and 'Confirm' buttons. A 'Cancel' button is also located below the virtual keyboard.

First log on to Elys PC using Digipass

Follow the procedure to define a new PIN code for your Digipass.

Now enter the serial number written on the lower left back of your Digipass and your e-mail address. Use your Digipass to generate a onetime password that you have to enter in the "one time password" field, and then confirm.

The screenshot shows the HSBC Elys PC Identification page. The top navigation bar includes links for 'Particuliers', 'Entreprises', and 'Professionnels', with 'France' selected. Below this, there are links for 'Entrepreneurs', 'Entreprises', 'Corporate', 'Associations', and 'International'. The main content area features a large banner for 'Trusteer' with the text 'Protégez-vous contre la fraude bancaire en ligne' and a link to download the Trusteer Rapport software. Below the banner, there are four columns of content: 'Meilleurs vœux', 'HSBC vous offre Trusteer Rapport', 'SEPA : votre entreprise est concernée', and 'Votre développement à l'international'. At the bottom, there are four sections for different client types: 'Entrepreneurs', 'Entreprises', 'Corporate', and 'Associations', each with a brief description of the services offered.
